**Progress of Road Development to the end of March 1938.**

TABLE NO. 1.

Fort St. George, January 15, 1938.

No. 13

In March 1937, the Government issued a Press Communication explaining the origin of the Road Development Fund, the objectives intended therefrom and the steps taken to carry out a comprehensive programme of road development in the Madras Presidency. The steps taken by Government for the general improvement of communications and the further progress made to the end of 1937-38 under the Road Development Fund are mentioned in the following paragraphs.

2. **Roads—Classification and maintenance.**—The major portion of roads in rural areas is under the control of District Boards, the Public Works Department maintaining only certain ghost roads, certain roads of strategic importance in Madhar and certain roads on canal banks.

The total mileage of roads maintained in the Presidency during 1937-38 is given below:—

Maintained road.	Unmaintained road.	Total.
54,138	14,910	69,048

The total mileage of roads and the expenditures incurred on their maintenance for each of the years 1930-31 to 1937-38 are given in Appendix I. Until 1931, local bodies were raising revenues by (a) the land-tax, (b) collection of tolls on all vehicles using the roads, (c) license fees on motor vehicles plying for hire and (d) large Government grants. From April 1931, the Motor Vehicles Taxation Act of 1931 came into force and tolls on vehicles using the roads were abolished. Instead of collecting a tax on all motor vehicles has since been levied by the Government and the proceeds distributed among local bodies. Country carts and all vehicles not propelled by power no longer have to pay tolls for the use of the roads.

3. The amount of toll revenue in 1930-31 and the amount actually distributed by the Government to local bodies from the proceeds of the motor vehicles tax in the years 1931 to 1938 are given in the following tabular statement:—

**Toll revenue in 1930-31—Rs. 79,24 lakhs.**

**Proportion of motor vehicles tax distributed to local bodies.**

Year.	As per 1930-31		Total.
	Share of local bodies.	Share of Govt.	
	Rs.	Pcs.	Rs.
1930-31	54,894	24,346	79,240
1931-32	10,000	8,907	18,907
1932-33	10,000	9,131	19,131
1933-34	10,000	9,718	19,718
1934-35	10,000	11,400	21,400
1935-36	10,000	11,718	21,718
1936-37	10,000	12,718	22,718
1937-38	10,000	12,718	22,718

It will thus be seen that as a result of the Motor Vehicles Taxation Act, the resources of all local bodies have seriously suffered.

4. Roads in this Presidency are classified as (a) Trunk roads, (b) Marketing roads (c) General-class roads, and (d) Other roads. The mileage of the different classes of roads maintained in 1937-38 are given below:—

Year.	Trunk roads.	Marketing roads.	General class roads.	Other roads.
1937-38	5,147	8,184	6,040	17,417

The Government are giving an annual grant ranging from Rs. 120 to Rs. 700 per mile for the portion of trunk roads maintained by district boards and a grant of Rs. 1,000 per mile for the portions maintained by municipalities. In the case of trunk roads not important towns, this amount has been further raised. The cost of all capital works on trunk roads is paid by Government. Local bodies are expected to supplement the Government grants

\* Expenditure made by the Public Department and the Corporation of Madras.

from their own funds, and maintain the roads in good condition. Although some of the district boards have been spending large sums on the trunk roads from their resources, most of the poorer boards have limited the expenditure on them to the Government grant.

In the case of second-class roads, Government were formerly contributing half the cost of maintenance subject to a maximum for each district board and also half the cost of capital works. This grant was conditional on the district boards spending on the second-class roads from their funds at least as much as the Government grant and subject to a certificate by the Collector of the district that the roads were maintained in a fair condition. The remaining roads were maintained from the funds of the district board. As funds available with local bodies were limited, especially after the abolition of tolls, even the half grant share for capital works was not always forthcoming and hence even important and urgently needed works could not be carried out. As many trunk roads ran parallel to railways, some sections carry less traffic than other important roads in the districts. Owing to lack of funds it was not found possible to maintain many of these important roads at the required standard. In his report on the scheme of road development for the Presidency, Mr. Vignar recommended that the Government should assume liability for important marketing and inter-district roads, in the same manner as for existing trunk roads and leave the district boards to maintain the remaining roads from their funds. He proposed the business as marketing roads of 6,521 miles of roads selected from the second and third class roads as, account of their importance. Government have since accepted this principle and the classification shown above is now in force. They have also ordered that the grant previously given for second-class roads should in future be given for the important marketing roads as now classified and that all other roads should be maintained by the district boards. A further condition is laid down that each district board should, from its own funds, spend either on important marketing roads or on the roads now classed as second-class roads an amount at least equal to the Government grant.

5. Village commutations.—The Government have been particularly anxious to develop village commutations so as to provide facilities for agriculturists, for inter-commutation and for marketing their produce. The expenditures under this head from 1930-31 is given below:—

Year,	Amount spent in village commutation.	Year,	Amount spent in village commutation.
1930-31	25.5	1935-36	1.95
1931-32	23.4	1936-37	3.40
1932-33	4.93	1937-38	50
1933-34	6.28	1938-39	4.75
1934-35	9.52		

These grants were paid to local bodies on the condition that they spent at least an equal amount from their funds so that the total amount expended on village commutations would be at least double the above figures. Owing to the absence of well-planned schemes and the influence of party politics in local bodies the development of village commutations was frequently not proceeding on healthy lines. Government have now ordered that a programme of development of village commutations for the next five years arranged in the order of importance and urgency for each district should be prepared and submitted to the Government through the Collector. After the approval by the Government of the programme, work will be taken up in the specified order as funds become available. This procedure will, it is hoped, ensure more wholesome continuity in the development of village commutations.

6. Execution of local fund works.—In the matter of execution of works considerable improvement has been effected in the past two years. Allegations of misuse of powers and nepotism in the matter of contracts were formerly frequent. Statutory rules have been issued in G.O. No. 2753, I.A., dated 4th October 1937, regarding the disposal of tenders. These lay down that

when works are to be done on contract, tenders should be publicly invited for all works costing Rs. 100 and above and that as a rule the lowest tender of qualified contractors should be accepted. Where for special reasons it is proposed not to accept the lowest tender, the rules require the sanction of the specified higher authority. The Government have also reserved the right to approve tenders for all capital works costing over Rs. 20,000. These rules have reduced the opportunity for misuse of powers considerably and complaints of abuse are now rare.

7. *Reorganisation of the Local Road Engineering Services.*—Several improvements have been effected in the working of the District Road Engineering departments. The Service of Assistant Engineers who form the main agency for the execution of works has been reorganised. Government have assumed control over them and formulated rules for their recruitment, discipline and conduct. It has been ordered that in future only graduates in Engineering or others possessing equivalent qualifications should be recruited as Assistant Engineers. The pay of future entrants has been revised with a view to securing economy, efficiency and maintenance in the service.

In the case of movement of officers the district boards have been advised as far as practicable to recruit men possessing the qualifications required for Assistant Engineers and to start each year on a slightly higher salary. This measure is designed to improve the quality of the personnel and to make the subordinate services a recruiting ground for the new service of Assistant Engineers.

8. Until recently each district board had its own separate staff working in night-light departments and the expenditure paid in one district was not generally available for other districts. In G.O. No. 1289, L.S.D., dated 25th March 1927, the Special Engineer for Road Development, an experienced officer of the District Road Engineering Service, was appointed as inspecting and superintending officer in respect of the Engineering departments of all the district boards in the Province. He is required under this Government Order to give guidance and advice to the District Board Engineers with reference to all roads except trunk roads, to inspect their offices, examine their estimates and send technical notices to works up to a limit of one lakh for works on all roads except trunk roads. In the case of trunk roads such guidance is to be given by the Superintending Engineer, Public Works Department. Estimates for works costing above one lakh require the sanction of the Chief Engineer, Public Works Department, in all cases. As a result of this reform the benefit of experience gained in one district is now available for other districts and considerable economy has already been effected as a result in the design of roads and bridges.

9. *Traffic census.*—A census of traffic has been ordered to be taken twice a year (once in April and once in October) in order to secure particulars of the extent of traffic on each important road and afford adequate data for its economical maintenance. These statistics have been provided and made available for all officers and others interested.

10. Greater use is being made of up-to-date developments in reinforced concrete by adopting for bridges, reinforced concrete structures such as T beam, through girders, beam-truss girders, etc. This will conduce to considerable economy and the avoidance of recurring maintenance charges.

11. Up to about a year ago, the execution of repairs to most of the important roads was confined to the season and was done generally on contract. Timely repairs were not being carried out, and not only was the cost of repairs increased by the delay but the roads were in poor order for a considerable portion of the year. To remedy these defects the maintenance of permanent guard embankments has been ordered so that repairs may be carried out as soon as they become necessary and all miscellaneous works necessary for the improvement of roads effected in time.

12. *The Road Fund.*—One of the important sources of revenue is recent years for the development of communications is the petrol tax fund otherwise called the Road Development Fund. The fall in revenue due to the Motor Vehicles Taxation Act has already been referred to in paragraph 2 above. Owing to the depression since 1934, provincial finances have also suffered and large grants to local bodies, a feature of the previous decade, could not be made. The Road Development Fund thus therefore is a timely measure and the development of communications is being financed to a large extent from this source. As stated in the opening paragraph, the progress made up to March 1937, has already been set forth in the Press Correspondent, dated 25.3.1937. The progress since made up to end of March 1939 is set forth below.

13. *Resolution on Road Development.*—The Government of India, have accepted the revised resolution on the utilization of the Road Development Fund adopted by the Indian Legislative Assembly on the 10th February and by the Council of State on the 25th March 1937. The revised resolution is given in Appendix II.

14. *The Provincial Board of Communications.*—The Board of Communications was constituted in 1934 with 17 members. The number was subsequently raised to 29 including three representatives of local bodies. As the representation of local bodies was considered inadequate the number was subsequently raised to five. The strength of the Board at present is 23. The Board has met five times since the beginning of 1937, viz., in March, August and October 1937, and in March and December 1938. The Board at these meetings approved schemes involving an estimated expenditure of Rs. 75.47 lakhs.

15. *Road Development Fund.*—The position of the fund from the year of its inception to the end of 1938-39 is shown below:—

Year.	Receipts.			Expenditure.			Balancing balance.			
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	
1930-31	..	..	38,00,000	0	15,41,374	4	2	4,96,478	11	38

1938-39	..	..	2,31,343	0	17,65,480	0	0	18,19,254	18	0

The balance with this Government at the end of 1938-39 was about Rs. 18 lakhs. In addition to this a sum of Rs. 32.79 lakhs is held by the Government of India to the credit of the Government but the provincial allocation out of the petrol tax fund for the period ending 30th September 1937 and a further sum of Rs. 55.60 lakhs being the revenue for the period from 30th September 1937 to 30th September 1938, thus making a total of Rs. 43.39 lakhs at the credit of this Government. The entire amount will be made available for expenditure as and when required in accordance with the revised resolution of the Central Legislature.

16. *Progress of schemes financed from Road Development Fund.*—The following statement shows the progress of schemes financed from the Road Development Fund:—

A detailed list of the works is given in Appendix III. Establishing the new scheme which were executed by the Public Works Department in Appendix IV. All the remaining works were executed by the Local Road Engineering staff.

17. In paragraph 4 of the last Press Communication reference was made to a seven years' programme of road development in which it was proposed to provide about Rs. 70 lakhs from the Road Fund for district bridges, district roads, metalling roads, and other works and surface improvements to trunk and important metalling roads. About 500 schemes estimated to cost about Rs. 71.53 lakhs have been selected for inclusion in the programme and the approval of the Government of India obtained to the debit of their cost to the Road Fund. The local authorities concerned have also been authorized to start the works after obtaining the sanction of the competent authorities to the estimate.

18. A supplemental programme of works estimated to cost Rs. 30 lakhs has been prepared. The programme is expected to be financed from the additional resources from petrol tax, the anticipated savings in works included in the main programme and from loan funds.

#### APPENDIX II.

Resolution on road development adopted by the Legislative Assembly on the 10th February and by the Council of State on the 24th March 1937.

In pursuance of the resolution adopted by this Assembly on the 21st April 1936, the Assembly recommends to the Governor-General in Council that—

1. There shall continue to be levied on motor spirit an extra duty of customs and of excise of not less than 2 annas per gallon, and the proceeds thereof shall be applied for the purposes of road development.

2. (1) From the proceeds of such extra duty in any financial year there shall be deducted a sum as near as may be equalled to the share in such proceeds accruing from bonded motor spirit used for purposes of civil aviation during the calendar year ending in the financial year concerned, and such sum shall be at the disposal of the Governor-General in Council for allocation as grant-in-aid of civil aviation.

(2) The balance of the proceeds shall be applied as a block grant to a separate Road Fund.

(3) For the purposes of this resolution "bonded motor spirit" shall mean motor spirit upon which the duty of customs or excise shall have been paid and in respect of which no rebate of such duty shall have been given.

3. (1) The Road Fund shall be allocated as follows:—  
(a) a portion equal to 2 annas per cent shall be retained by the Governor-General in Council as a central reserve;

(3) out of the proceeds there shall be allocated by the Governor-General in Council—

- (a) a portion for expenditure in each Governor's province;
- (b) a portion for expenditure elsewhere in British India;
- (c) a portion for expenditure in Indian States and princely States,

as near as may be in the ratio which the consumption of taxed motor spirit, other than motor spirit used for the purposes of civil aviation, in each area for which an allocation is to be made shall bear to the total consumption in India of taxed motor spirit, after their motor spirit and for the purposes of civil aviation, during the calendar year ending during the financial year concerned.

(4) The portions allocated for expenditure in Governor's provinces shall be released by the Governor-General in Council and they are hereby required for expenditure in the manner hereinafter specified.

(5) If on the expiry of the Governor-General in Council the Government of any Governor's province has at any time—

- (a) failed to take such steps as the Governor-General in Council may recommend for the regulation and control of motor vehicles within the province; or

- (b) delayed without reasonable cause the application of any portion of the Road Fund allocated or credited as the case may be for expenditure within the province,

the Governor-General in Council may remove the whole or part of any sums which he may at that time hold for expenditure in that province.

(6) All sums received by the Governor-General in Council from the interest of any local Government or otherwise shall be re-allocated between the credit accounts of local Governments and the interest with the Governor-General in Council in the ratio of the sums allocated for the financial year preceding the year in which the re-allocation is made. Provided that the sum so allocated to the share of the province from whose account the re-allocation has been made shall also be credited to the account with the Governor-General in Council.

4. The balance to the credit of the Road Fund or of any allocation thereof shall not lapse at the end of the financial year.

5. No expenditure shall be incurred from any portion of the Road Fund save as hereinafter provided.

6. The Control reserve with the Governor-General in Council shall be applied first to defraying the cost of administering the Road Fund and thereafter upon such schemes for research and intelligence and upon such special enquiries connected with roads and upon special grants-in-aid for such schemes connected with roads as the Governor-General in Council may approve.

7. The sums allocated for expenditure in British India may, subject to the previous approval of the Governor-General in Council in each proposed year, be expended upon any of the following objects, namely:—

- (a) as to the construction of new roads and bridges of any sort;
- (b) as to the reconstruction or substantial improvement of existing roads and bridges;
- (c) as to special work, on the maintenance of roads and bridges, constructed, reconstructed or substantially improved from the Road Fund or from loans approved or sanctioned by the Governor-General in Council;
- (d) as to work elsewhere, including the cost of establishment, connected with the promotion of schemes of road development, or with the administration of provincial Boards of Commissioners;
- (e) to meet charges including the cost of establishment connected with the control of motor transport; and
- (f) as to the interest and amortisation of loans approved or sanctioned before the date of this resolution by the Governor-General in Council, and upon or to be spent on the reconstruction, reconstruction, or substantial improvement of roads and bridges.

8. In considering proposals for the construction, reconstruction or improvements of roads and bridges from the Road Fund, the Governor-General in Council shall have regard to the present urgent need for improving the efficiency and reducing the cost of transport by road of agricultural produce to markets and suburbs.

9. (1) A Standing Committee for Roads shall be constituted each financial year consisting of—

- (a) The Member of the Governor-General's Executive Council in charge of the department dealing with the Road Fund, provided

- that should the said Member of the Governor-General's Executive Council be unable to be present at any meeting he may nominate some one in his place,
- (b) one nominated official member, other than a Railway official, who shall be a member of the Legislative Assembly;
- (c) three members elected by the members of the Council of State from amongst themselves;
- (d) six members elected by the members of the Legislative Assembly from amongst themselves; and
- (e) the Chief Commissioner of Railways.
- (2) The Chairman of the Committee shall be one of the Official Members of the Council, other than the Chief Commissioner of Railways, whom the Governor-General in Council may from time to time appoint.
- (3) No proposal for expenditure from the Road Fund shall be given by the Committee except if it is supported by—
- (a) a majority of the members present and voting who are members of the Legislative Assembly; and
- (b) a majority of the members of the whole Committee present and voting.
- (4) All proposals for expenditure from the rental reserve and all other proposals for expenditure from the Road Fund to be made in British India shall be referred by the Governor-General in Council to the Roadways Committee before he approves of them.
13. The functions of the Standing Committee shall be—
- (a) To consider the annual budget and accounts of the Road Fund.
- (b) To advise upon all proposals for expenditure from the rental reserve.
- (c) To advise upon the desirability of all other proposals involving expenditure from the Road Fund in British India.
- (d) To advise upon proposals for the redemption of mortgage held by the Governor-General in Council as provided for in sub-paragraph (2) of paragraph 2 of this Regulation.
- (e) To advise the Governor-General in Council generally on all questions relating to roads and road traffic which the Governor-General in Council may refer to the Committee.

[illegible]

G. H. CANAPATY, Lieut.-Col., I.M.S.,  
Director of Public Health.

2140a, 26 January 1948.

4. The interest money deposited by successful bidder will be returned to them at the rate at the time and that of the successful bidder will be returned in the manner laid down in clause 7 below.

5. The sale will not be considered as completed unless it is confirmed by the Superintending Engineer, Civilian. Canteen department, which the Superintending Engineer, who reserves the right to refuse to confirm the sale without assigning any reason therefor.

6. The successful bidder will not be permitted to do any work under the license until the sale is confirmed by the Superintending Engineer and said conditions 7 and 8 have been satisfied.

7. As soon as the right has been knocked down, the successful bidder will be required to deposit a further sum which will be returned money already deposited will make up one-fourth of the amount, if needed. This amount will be held as security for the due fulfilment of the conditions of the sale in the event and the agreement between concerned and any balance which becomes due during the time of satisfaction on account of non-fulfilment of the conditions herein will be returned to the licensee in the equity of the license. Should he fail to do so the deposit made by him will be forfeited and the right will be put up again immediately by the selling officer on the same conditions as previous deposit of the Executive Engineer and the licensee will be deemed to be holding at such rate. Each delinquent shall also be liable for all costs, loss or damage caused to Government as a consequence of such default but shall not be entitled to claim the profits of any or any portion thereof resulting from disposal of any such goods. In the case of such loss or damage exceeding the amount of deposit paid by the bidder under the foregoing provisions such balance may be recovered from him in addition to recover under the provisions of the Malabar Revenue Act.

8. On confirmation of the sale by the said Superintending Engineer, the successful bidder will be required to deposit within ten days of the first being introduced to him on record of his contract of his bid and to execute a copy of such a statement of agreement agreeing to be bound by the conditions laid down in this notice and to pay a further amount of Rs. 1000 within ten days of the first day of the month of July 1939 and the balance thereof on or before the 1st day of the month of July 1940. The stamp duty on the agreement will be borne by the licensee. If the above amounts are not paid on the due dates or the agreement, executed within the time and period, the sale will be cancelled and the Superintending Engineer is empowered to sell the property disposed of by the licensee and in the event of such loss and expense exceeding the amount of security deposited by the licensee under the foregoing provisions such balance may be recovered from him as arrears of revenue under the provisions of the Malabar Revenue Act.

9. The Executive Engineer may at any time during the period of the contract call upon the licensee by notice in writing to furnish further or additional security and the licensee shall furnish the same in the satisfaction of the Executive Engineer within ten days of receipt by him of such intimation.

10. In all cases of suspension of sale by the Executive Engineer, Work Cess Division, the licensee shall forfeit his right to return any part from the date of such order and the licensee shall forfeit the security of the license payable to the Executive Engineer, Work Cess Division, or any other department by him. Also it shall be preferred to the Executive Engineer or his deputy to take possession of the station from the date of such order of suspension of sale and to meet the right of returning sale or otherwise disposal of it.

11. The licensee shall at all times, if not himself present, have at the said station, an agent duly authorized to issue his tickets, to arrange for the carriage of loads, to take or take with themselves

expedition and attend to complaints or orders issued by the Executive Engineer or any other department to be issued and a letter or other communication issued to the agent shall be considered as received by the licensee and shall be acted upon accordingly.

12. A notice board shall be posted in a conspicuous place near the toll station containing such as English and Malayalam the first to be posted. It shall be maintained in good condition by the licensee at his own cost. If the licensee fails to fix the board within a week of the toll station having been taken charge of by him, it will be done by the Public Works Department and the cost recovered from the licensee.

13. To each boat passing the toll station a ticket shall be issued on every day the amount of toll paid and the date of issue. These tickets will be in duplicate and will be supplied to the licensee on payment of the price. One copy of the ticket shall be issued to the boatman, the other being retained by the licensee or by himself to the said Executive Engineer's office as a receipt of the toll. The said tickets shall be returned to the Executive Engineer on the expiry of the period fixed herein.

14. The Executive Engineer or his representative shall at all times have access to the boats of tollers for inspection.

15. The toll should be in the name of the licensee only.

16. No subletting or assignment of the license will be allowed and the licensee will be liable to lose his license forthwith if he transfers his license of toll.

17. He shall be deemed to be in default in the following cases:

(a) Government, public, private and voluntary and all persons, animals and vehicles employed in carrying the toll.
